

Icon900

The Icon900 from IMI Cornelius offers competitive pricing, efficient cooling and high brand visibility. We understand the importance of offering high quality, dependable back bar bottle coolers at an affordable price.

That's why we developed the Icon range of bottle coolers. Icon is designed to maximise functionality at minimum cost. The new high quality, efficient, brand-driven range consists of three fit-for-purpose bottle coolers designed to match your requirements whilst maintaining a very competitive price.

Key features include:

- Lockable doors as standard
- Internal illumination to increase brand visibility
- Front breathing so units can be banked side by side
- Available with either hinged or sliding doors
