

# UltraFlow 1P

UltraFlow from IMI Cornelius provides the ultimate solution for busy event and stadium bars. Its unique high through-put technology means UltraFlow's revolutionary system dispenses a half-litre of beer in just 5 seconds - this queue-busting performance is up to three times faster than standard dispensing systems. UltraFlow ensures that your customers are always served quality beer, without having to suffer frustrating queues.

The UltraFlow system consistently delivers superior quality and consistency of in-glass temperatures, it also increases a bar's productivity, reducing queuing, increasing repeat purchase and increasing revenue.

The UltraFlow system offers a wide range of unique benefits:

- Dispense rates of a half-litre in just 5 seconds
- Superior quality and consistency of in-glass dispense
- Reduced congestion enhancing customer satisfaction
- Improved availability of larger serving sizes, such as pitchers and jugs
- Less bar staff and dispense points on the bar
- Reduced skill levels required by staff due to the easy-to-use electronically controlled system
- More sales in a limited space of time
- Reduced wastage providing greater keg yield
- UK Weights & Measures approved

**Options:**

- Pre-set single pint dispensed volume UK weights and measures approved
- Auto detect empty Keg CO<sub>2</sub> bottle
- 1 Pint stroke completion
- Settable dispense volumes
- Jug option
- Top up facility

**Performance:**

Dispense rate: 5-9 seconds  
 Maximum Ambient Temperature: 35°C

**Dimensions:**

Height above bar: 570mm  
 Height below bar: 95mm  
 Width: 100mm  
 Depth: 148mm  
 Weight: 5 Kg

**Fixing:**

1. Single point bar clamp suitable for a bar thickness of up to 70mm
2. Through the counter secured by a brass nut 46mm diameter

**Finish:**

Single case with powder coat finish as standard  
 Optional: Chrome, Gold or Brushed Chrome

**Electrical Supply:**

24v, sited no more than 1.5m away from the transformer

**Cooling:**

Cornelius offers a comprehensive range of cooling options to match the fast dispense speed of UltraFlow to maintain a perfectly chilled product.

**Additional Information:**

Product Inlet: 3/8" John Guest push in  
 Water Circulation: 3/8" John Guest push in

Please note that the UltraFlow font is part of a system. Purchasing the font alone will not allow fast dispense unless installed along with other essential equipment.

Compliance to standards and legislation  
 The UltraFlow dispense head complies with UK legislation. Materials coming into contact with the product are of "Food Grade" quality and are compatible with common beer line cleaning fluids.

IMI Cornelius reserves the right to modify the details in the publication as products and specifications are updated and improved.
