

Zenith900

The Zenith900 from IMI Cornelius builds on our long established reputation for performance, reliability and support. The Zenith900 combines enhanced levels of quality and refinement with practical, innovative features for ease of functionality and usability.

These include:

- Plug and play low maintenance design with auto defrost facility and non-blocking open condenser design
- Front breathing refrigeration system, allowing unit to be completely built in
- Efficient forced air cooling ensuring faster and uniform chilling
- Superb internal illumination delivering maximum brand visibility, increasing impulse purchasing
- Maintaining the industry leading levels of performance and reliability
- Great range of finishes available to suit any retail environment
